**Size Chart General Guidelines**

|            | 10'                        | 11'                        | 12'                  |
|------------|----------------------------|----------------------------|----------------------|
| All Waters | Novice up to 150 lbs       | Novice up to 190 lbs       | Novice up to 245 lbs |
|            | Intermediate up to 190 lbs | Intermediate over 225 lbs  |                      |
|            | Advanced over 225 lbs      |                            |                      |
| Tesoro     | Novice                     | Intermediate               | Advanced             |
|            | Small Height               | Medium Height              | Large Height         |
|            | Up to 180 lbs              | Up to 210 lbs              | Up to 240 lbs        |
| Endura     | Novice up to 180 lbs       | Novice up to 215 lbs       |                      |
|            | Intermediate up to 225 lbs | Intermediate above 225 lbs |                      |
|            | Advanced up to 265 lbs     | Advanced up to 315 lbs     |                      |
| SUP ATX    | Under 150 lbs              | 150 lbs to 200 lbs         | Over 200 lbs         |
|            |                            |                            | Any weight/1st board |
|            |                            |                            | Family board         |

In general, larger boards can be used by a broader range of people (size and skill abilities). If you are going to only have one board, go with a larger size. Friends, neighbors, and even possibly strangers will want to try it out! You can even add a child or pet as a passenger. Almost anyone can get up on and paddle a 12' board.

Smaller boards are great for smaller size people and advanced users. Many women like the smaller size because they are lighter and easier to carry.
